Now, more than ever, spending less on energy is a good thing. ENERGY STAR® certified equipment helps you do just that. In fact, replacing a 12-year-old A/C unit with an ENERGY STAR certified model could cut your cooling costs by 30%. And, for a limited time, rebates from both PECO and the Electrical Association of Philadelphia (EAP) can make upgrading a lot more affordable. Just work with an EAP participating contractor, sign your contractor agreement by **June 3** and have your new equipment installed by **June 17, 2020**.

SEER = Seasonal Energy Efficiency Ratio, EER = Energy Efficiency Rating, HSPF = Heating Seasonal Performance Factor, AFUE = Annual Fuel Utilization Efficiency, EF = Energy Factor

*The EAP offer is valid only for contracts signed between February 12 and June 3, 2020, and with equipment installation on or before June 17, 2020. Customers must work with a participating contractor, and all contractor claim forms must be received by EAP on or before July 1, 2020.

**Total rebate amounts based on 3-ton systems. PECO rebate amounts are subject to change, and amount will vary based on equipment. Must apply for PECO rebates within 90 days of purchase. Your PECO rebate check will arrive in the mail within 4 to 6 weeks. See full terms and conditions at peco.com/rebates.

†Rebate amounts vary based on efficiency ratings and single-zone and multi-zone ductless systems. Example shown is for a multi-zone (20.0 SEER, 12.5 EER, 9.6 HSPF) unit. Speak to your contractor to determine which system is right for you.
